April 5, 2010

Dear Airport Neighbor or Other Interested Party,

Ted Stevens Anchorage International Airport (ANC) will close various taxiways and runways between now and October to complete needed improvements, repairs and maintenance. As a result, flight patterns not normally used and greater frequency of flights over the community may be observed.

The required maintenance on Runway 14/32, ANC's North/South runway, and Runway 7L/25R, ANC's northernmost East/West runway, has been scheduled during the daytime hours of 7:30 am and 8:00 pm in order to keep the nighttime noise impact to a minimum. Multiple improvements will take place during each closure - including runway painting, signage and survey work, crack sealing, light replacement and other required maintenance. Runway 7R/25L, ANC's southernmost East/West runway, is scheduled to be closed day and night through October 1, 2010 to allow for complete reconstruction. Please understand that wind and weather conditions may alter this schedule.

<u>Runway Closure</u>	<u>Dates</u>	<u>Time</u>
Runway 14/32	April 7 – 11	7:30 am – 8 pm
Runway 7L/25R	April 12 – 18	7:30 am - 8 pm
Runway 7R/25L	April 19 – Oct 1	24/7

The Airport recognizes there will be a temporary noise impact on the community and wants the public to stay informed about the reasons for the summertime increase in aircraft noise. The Airport, FAA, and the Airlines appreciate your patience during this upgrade to the runway system.

Thank you very much for your patience while these improvements are underway. For further information on the Airport's construction activities, call the Noise Hotline at 266-2648 or visit our website at www.anchorageairport.com.

Sincerely,

A handwritten signature in blue ink that reads "Theresa".

Theresa Maser
ANC Noise Program Manager
